

CAPABILITY STATEMENT

Trident Development Group, LLC is a Florida-based infrastructure development and project advisory firm specializing in civic infrastructure project sponsorship, owner's representative services, and public-private coordination.

We support public agencies and development partners across all phases of infrastructure delivery, including project planning, stakeholder coordination, funding strategy, procurement support, and execution oversight.

Our focus is delivering structured, transparent, and accountable project leadership for complex public infrastructure initiatives.

CORE COMPETENCIES

Project Sponsorship & Development Advisory

- Public-private partnership (P3) structuring and development support
- Early-stage feasibility analysis and concept development coordination
- Multi-stakeholder alignment across public agencies, utilities, and private partners
- Funding strategy development and capital planning support
- Grant identification, coordination, and application support
- Land acquisition and entitlement coordination (advisory role only)

Owner's Representative & Program Oversight Services

- Project governance framework development and oversight support
- Budget, schedule, and milestone tracking at the program level
- Coordination of consultants, engineers, architects, and contractors
- Procurement support, RFQ/RFP coordination, and evaluation assistance
- Risk identification, tracking, and mitigation coordination
- Executive, board, and agency reporting and communication support

Infrastructure Advisory & Delivery Support

- Capital improvement program (CIP) planning and implementation support
- Interagency coordination and regulatory process navigation
- Infrastructure delivery strategy and implementation planning
- Program-level project management across multi-project portfolios
- Performance tracking systems and delivery reporting frameworks

DIFFERENTIATORS

- Focused exclusively on project delivery leadership, development coordination, and program management (not construction or design services)

- Specialized in public-sector infrastructure and P3 environments requiring multi-agency coordination and stakeholder alignment
- Governance-driven delivery approach emphasizing transparency, accountability, and structured decision-making frameworks
- Flexible engagement model supporting municipalities, utilities, and public agencies across varying P3 and infrastructure delivery structures
- Integrated coordination approach aligning engineering, architectural, financial, and construction partners under a unified delivery structure

PAST PERFORMANCE

Trident Development Group, LLC is a newly formed entity with no prior project or contract performance history. The firm is established to provide public-private partnership (P3) development coordination, project sponsorship, and infrastructure delivery support services.

The organization is structured to support future engagements in public-sector infrastructure through disciplined project governance, structured coordination frameworks, and integration with qualified engineering, architectural, financial, and construction partners.

All services will be delivered through collaborative project teams assembled based on project-specific requirements and client procurement standards.
